DATASHEET

TOWERFLEX

The TOWERFLEX is a fully equipped full-body harness for use on tower and mast work, e.g. in the utility and telecommunications sectors. The click buckles
allow the harness to be put on and taken off quickly. Breathable pads in the
shoulders, hips and buttocks provide extra comfort - even over long periods.
Thanks to the unique load distribution adjustor in the hip area, it is possible to adjust the load bearing between the buttock strap and waist belt. The
elastic shoulder straps offer plenty of freedom of movement for maximum user comfort in various working positions. - Tested according to AS/NZS standard - Unique load distribution adjustor gives ability to manage comfort like never
before - Maximum freedom of movement thanks to elastic shoulder straps -
Different padding for maximum wearing comfort
