DATASHEET

GORDON LIFT

This pulley system based on the GORDON RESCUE facilitates the transport of loads up to 300 kilograms. The device is self-locking in one direction to prevent loads from falling, even if the rope is released. This high-quality device comes with a 4:1 configuration with two rope pulleys, two carabiners and an 11 mm rope of the desired length incl. a DRYBAG. Important note: Pulley system only, no PPE!

FEATURES

Colour:	Black
Minimum temperature:	-35 °C
Maximum temperature:	45 °C
Working Load Limit:	300 kg

DIMENSIONS

Rope length:	15.00 m

MATERIAL

Material:	Aluminium, Steel
