DATASHEET

TUBE ALP

Those who crave more than short sport routes and climbing gyms need a belay device that is designed for single, half, and twin ropes. In addition to its outstanding braking performance and smooth rope payout to the lead climber, the TUBE ALP also has a release assistance function. Ideal for rope teams on multi-pitch routes.

- Forged loop for securing the device at the belay station
- Release loop for lowering the second climber
- We recommend the use of gloves when belaying with dynamic belay devices
- Suitable for rope diameters from 7.9 to 11 mm
