DATASHEET

BFD SK12

The Kernmantle rope single leg BFD Personal Energy Absorbing range are all designed to effectively arrest a fall whilst minimising the shock loads on the body. The 'Tear Tape' technology shock pack utilises a controlled tearing action that is initiated when the lanyard is 'loaded' during the fall and limits the fall arrest forces to below 6kN. The shock pack features a unique Velcro attach cover that provides a 100% inspection as well as the potential to clean & dry the pack contents if necessary. The cover is also designed to protect the label pack, conveniently sewn into the tear tape material.
