E-class number:	40-21-04-01	Gross weight:	3.66 kg
Customs tariff number:	63079098		

DATASHEET

IGNITE PROTON WIND

This completely equipped body harness for fall arresting. This professional and completely equipped body harness for fall arresting, work positioning and climbing protection with a synthetic sliding plate was developed specially for the wind energy industry. It can be used in many other areas as well when top performance in safety and functionality are required. IGNITE PROTON scores with thermo-shaped hip padding that evenly distributes weight and is protected from wear and tear on the outside with a synthetic plate. The well-designed construction allows the fall-arrest attachment point to be perfectly positioned for the user. It also offers practical belt strap coils to eliminate bulky excess length. Shoulder and leg padding can be laundered or replaced. Pre-formed gear loops and tool eyelets for different kinds of use make the harness a complete system.

- Can be used with all carabiner openings of 10.5 mm and up
- Thermo-shaped waist padding
- Replaceable shoulder and leg padding

FEATURES

Application areas:	Emergency, Wind energy, Steelwork, Working on masts and towers, Mobile Work Platforms
Colour:	Black, Orange, Anthracite
Attachment points:	Sternal aluminium attachment point, Dorsal aluminium attachment point, Side aluminium attachment point, Climbing protection aluminium attachment point
Number of material loops 7 kg:	0
Number of material loops 10 kg:	0
Number of material loops 15 kg:	2
Harness features:	Webbing rewind, Fallindicator, Lanyard parking ring, Wind plate
Hand wash:	40 °C
Maximum lifetime:	10 years
Minimum body height:	0 cm
Maximum body height:	0 cm
Minimum hip size:	102 cm
Maximum hip size:	138 cm
Minimum leg size:	80 cm
Maximum leg size:	110 cm
Minimum chest size:	0 cm
Maximum chest size:	0 cm
