DATASHEET

DOUBLE O TRI 2.0 - TACTICAL

Oval carabiner with DOUBLE TRIPLE gate. Ideal for use in rigging systems, with belay/abseil devices, ropes and pulleys. Thanks to its "Full Grey" color, the carabiner is not very conspicuous.

- The symmetrical shape allows them to center themselves and work in both directions
- Patented double gate can be used by both left and right-handed users
- I-profile body optimizes the strength-to-weight ratio
- Enlarged cross-section in areas exposed to abrasion (apex and base)
