DATASHEET

GORDON

GORDON is the all-rounder among the fall arresters. It convinces with its low weight and robustness. This offers advantages especially when working at great heights: The devices can be combined with various certified textile ropes.
GORDON offers an infinite number of application possibilities. It can be used either simply as a fall arrest device or, in the GORDON RESCUE version, as a fall arrest and lead belay device.

- GORDON RESCUE can be used in combination with pulleys as a self-locking pulley system and is suitable for access, lead climbing and belaying during rescue.
- The device can be equipped with rope of any length and can be used in both directions.
