DATASHEET

PEANUT Y

The compact connecting device PEANUT Y with FS90 ALU karabiner convinces with its self-retracting arms, which do not restrict the working radius and ensure that the fall height is extremely low. The all-rounder carabiner with an opening width of 60 mm is suitable for almost all structures and can be opened easily. The lanyard is perfectly suited for continuous, mutual securing - even at lower heights. The PEANUT Y is edge-suitable and therefore also serves for horizontal securing. The product contains the One-4-All damper and is therefore suitable for a very wide range of user weights from 50 to 135 kilograms. Due to the 2.5 m long arms, the PEANUT Y is ideal for securing in scaffolding. The fastener is available in a variety of karabiner variants (aluminium, steel, etc.). A red indicator shows when the strap has been released and provides additional safety.
