DATASHEET

WAIST TEC

This ergonomic harness has been specially developed for restraint and positioning work. In combination with the WORK TEC 140 model, it can be upgraded to a harness with four attachment points in accordance with EN 361 and EN 358 - ideal for use in fall arrest and positioning systems.

The side EN 358 anchorage points can be rotated outwards in work mode and folded inwards to save space when not in use to ensure maximum freedom of movement. An additional attachment point marked "R" on the back is used exclusively for connecting a lanyard.

Capable of bearing loads of up to 140 kg.
