SMARTLIGHT 500 HYBRID

SmartLight 500 is a small and versatile 500 lumen headlamp for professionals. It has a durable and dust-tight design and is water-resistant according to IP65. It includes red and orange LED light modes for close-range work in very dark conditions. The clever Mag-Snap system lets you detach the lamp from the headband easily and snap it into the included helmet mount or on a metal surface.

Small and versatile 500 lumen headlamp for professionals

SmartLight 500 comes in a small and versatile design that is dust-tight and waterproof according to IP65. A COB-LED light and two medium power LEDs provide excellent working light of 500 lumen for close and medium range. The red LED light preserves your night vision while the orange light is optimal for maps and instructions. SmartLight 500 can be used in four light modes, where the super-low mode of 15 lumens saves battery and is perfect for close-up work.

Mag-Snap for multiple attachments

SmartLight 500 features a clever Mag-Snap system that lets you detach the lamp easily from the headband and snap it into the included helmet mount, on a metal surface or use it as a stationary light.

SmartLight 500 – Hybrid Technology

SmartLight 500 features Hybrid technology, meaning it is compatible with the included rechargeable Silva Hybrid Battery and AAA batteries (not included).
