E-class number:	40-02-92-90		
Customs tariff number:	76169990		

DATASHEET

TELESTICK

The TELESTICK is ideal for easy pre-clipping of ropes or express slings over a long distance as well as cleaning handles out of reach. The ultimate stick can be extended from 63 cm to 310 cm, is telescopic and can be adjusted continuously by clamps. Due to the integrated hook, the stick can be used to retrieve ropes. It is optimized for smooth opening and removal of the carabiner from the anchorage. It is compatible with a large number of snap karabiners, regardless of whether they are solid snap or wire shackle karabiners. The ergonomically shaped head enables hook tabs and drill hooks to be clipped in difficult situations. Due to its massive construction the TELESTICK is also suitable for lasso clipping (only with rope).

FEATURES

Colour:	Black, Orange

MATERIAL

Material:	Aluminium
