DATASHEET

FIXING TAPE

The highly durable, water-proof, 25-mm wide and 15 cm long FIXING TAPE is used to secure special attachment points, such as the FIXING STRIPE SHORT, to a tool in order to protect it from crashing or falling from heights. The flexible tape is made to conform to the shape of the tool. The self-vulcanizing characteristic of the tape creates a secure bond between the tool and the tape.
