DATASHEET

STROPP

The STROPP offers optimal flexibility and practicality when securing tools from crashing or being lost. The sturdy flex band coils together to about 70 cm and extends to about 120 cm. It offers enough flexing so that it's comfortable to work with tools without removing it. The ring at the end of the STROPP can also be easily attached to personal protective equipment using a carabiner. It can support up to 10 kg and is designed for large tools such as drills or electric saws.
