DATASHEET

ACTSAFE REMOTE CONTROL ICX

This replacement accessory of the ActSafe ICX POWER ASCENDER increases the safety of every user considerably. With the ActSafe ICX REMOTE CONTROL, a second person working on the ground can take over the control of the passenger up to a range of 50 metres. This enables them, for example, to recover a disabled and unconscious person in an emergency without an elaborate rescue system. The person working on the rope can override the control at any time.
