CLAW LINE CABLE 8MM

GENERAL

Art.Nr:	CL-008-50	Standards:	EN 353-1:2014+A1: 2017
GTIN:	4030281283256	Net weight:	14.92 kg
E-class number:	40-02-01-90	Gross weight:	14.92 kg
Customs tariff number:	73121020		

DATASHEET

CLAW LINE CABLE 8MM

Made of stainless steel, the extremely durable, corrosion-resistant CLAW LINE CABLE 8 MM CUSTOMIZED connects the upper and lower anchor points of the CLAW LINE vertical arrester system. The upper end is pressed onto a stainless steel thimble with a copper press sleeve. In combination with the clamping device, the CLAW LINE system offers a short end connection and thus a very comfortable entry area. An additional deflection of the steel cable at the lower end is not necessary with the design of the system. This immensely reduces the risk of injury from open strands during assembly and operation.
The CLAW LINE vertical steel rope fall arrester system combines the highest degree of safety during climbing and maximum flexibility during installation.

FEATURES

Colour:	Silver
Maximum lifetime:	30 years
Max. number of persons:	3
Min. temperature:	-30 °C
Max. temperature:	80 °C
Rope access technique:	No
Vertical systems:	Vertical rope system

DIMENSIONS

Rope length:	50.00 m
Max height:	0 mm
Min. height:	0 mm

MATERIAL

Material:	Stainless Steel
