CLAW LINE TENSIONER

GENERAL

Art.Nr:	CL-009	Standards:	EN 353-1:2014+A1: 2017
GTIN:	4030281281955	Net weight:	0.67 kg
E-class number:	40-02-01-90	Gross weight:	0.67 kg
Customs tariff number:	73269098		

DATASHEET

CLAW LINE TENSIONER

The CLAW LINE TENSION is a stainless steel tensioning device for fixed-installation vertical CLAW LINE arrester systems with ropes Ø 8mm. A single tensioning element for all available system variants makes component planning of any CLAW LINE system extremely simple. The required rope tension of 80 kg is built up by turning the turnbuckle. The laser marking indicates at all times whether the tension in the rope meets the requirements.
The CLAW LINE vertical steel rope arrester system combines the highest degree of safety when climbing and maximum flexibility when attaching.

FEATURES

Colour:	Silver
Max. number of persons:	3
Maximum load:	80.00 kg
Min. temperature:	-30 °C
Max. temperature:	80 °C
Rope access technique:	No
Vertical systems:	Vertical rope system

DIMENSIONS

Minimum area required:	136.00 cm²
Max height:	340 mm
Min. height:	340 mm
Product length:	340.00 mm
Product width:	40.00 mm
Product heigth:	25.00 mm

MATERIAL

Material:	Stainless Steel
