Standards:	AS 1891.5:2020
Net weight:	3.09 kg
Gross weight:	3.09 kg

DATASHEET

ADJUSTABLE ROPE LANYARD Y

The L-AUS-0547-2 is a high-quality lanyard with integrated energy absorber, developed for maximum safety and reliability when working at height. It meets the requirements of the AS/NZS 1891.5:2020 standard and is ideal for professional use in demanding working environments.

Equipped with the robust KOBRA TRI carabiner with an opening width of 22 mm and the FS 90 ST ANSI carabiner with a 60 mm opening, the system offers high flexibility and secure connection options. The combination of durable materials such as polyester, polyamide and steel ensures a long service life and high load-bearing capacity.

With a maximum breaking load of 45 kN and a maximum impact force of 16 kN, the lanyard guarantees reliable protection in the event of a fall. The overall length of 2.0 m allows sufficient freedom of movement while providing optimum protection.

The product is approved for users weighing up to 150 kg and impresses with its sophisticated design and practical handling.

FEATURES

Colour:	Red
Fallindicator:	Yes
Hand wash:	40 °C
Edge approved:	No
Maximum lifetime:	10 years
Min. temperature:	-35 °C
Max. temperature:	45 °C

DIMENSIONS

Rope length:	2.00 m
Rope diameter:	11.00 mm
Lanyard rope diameter:	11.00 mm
Product length:	200.00 cm

MATERIAL

Material:	Polyamide, Polyester, Steel
