DATASHEET

PATRON PLUS 11 WITH END LOOPS

Dirt, climatic influences, heavy loads and dimensional stability requirements place high demands on a rope. During the product development of our Patron PLUS, we therefore focused our attention on making this rope extremely robust and compact.

These properties of the rope have been documented and confirmed in numerous tests carried out by our customers. Patron PLUS complies with the EN 1891A standard and is available both with stitching and with a figure 8 knot.
