Art.Nr:	H-210	Standards:	EN 12841:2024/B, EN 567:2013, UIAA 126: 2018
GTIN:	4030281282495	Net weight:	0.11 kg
E-class number:	40-02-01-90	Gross weight:	0.12 kg
Customs tariff number:	76169990		

DATASHEET

GET UP

GET-UP is both rope clamp and manual ascender at once, and was developed for anyone who wants the best handling even under the most challenging conditions. The clever, ergonomic design makes it possible to use it left-handed, right-handed or two-handed with a huge amount of grip. GET-UP is feather-weight and extremely robust at the same time because there are no synthetic parts. The 2-carabiner eyelet eliminates carabiner chains. That means: Less material used and faster ascent if you use foot slings and cowtails. You can also use pulley systems much easier. The newly designed opening zipper on the GET-UP prevents unintentional opening it and makes one-handed operation very easy - even when wearing thick gloves. GET-UP. The small rope clamp for big demands.

FEATURES

Colour:	Anthracite, Grey, Black
Maximum lifetime:	30 years
Min. temperature:	-40 °C
Max. temperature:	80 °C
UIAA compliance:	No
100% quality control:	Yes
Hot forged:	No
Hard coated:	No

DIMENSIONS

Product length:	129.00 mm
Product width:	66.00 mm
Product height:	122.00 mm

MATERIAL

Material:	Aluminium, Steel
