CLAW SET STEEL LADDER

GENERAL

Art.Nr:	SET-CL-010-S	Net weight:	4.79 kg
GTIN:	4030281294498	Gross weight:	4.79 kg
E-class number:	40-02-01-90		
Customs tariff number:	73269098		

DATASHEET

CLAW SET STEEL LADDER

The CLAW LINE AP STEEL LADDER for ropes larger than 9 mm is suitable for the "ladder attachment" system variant, in which the climbing protection system can be attached directly to the ladder used (steel, aluminium). Thanks to its high force absorption capacity via two rungs, the stainless steel anchor point ensures that the force applied in an emergency is fully supported by the system. CLAW LINE AP STEEL LADDER can be used for all types of rungs and rung spacings. The upper or lower ladder anchorage point can be combined with other lower CLAW LINE anchorage variants directly on the structure or other anchorage points. The crocodile clip can be used with all rung types. The CLAW LINE vertical steel cable climbing protection system combines maximum safety when climbing and maximum flexibility when attaching.

FEATURES

Colour:	Silver
Max. number of persons:	1
Maximum load:	150.00 kg
Rope access technique:	No
Vertical systems:	Vertical rope system

DIMENSIONS

Minimum area required:	0.00 cm²
Max height:	0 mm

MATERIAL

Material:	Stainless Steel
