E-class number:	40-02-01-90	Gross weight:	0.58 kg
Customs tariff number:	73269098		

DATASHEET

CLAW SKC EVO+

The SKC EVO+ removable fall arrest lanyard combines the highest safety standards with a user-friendly design. Thanks to its innovative Double Action opening system, the device opens only when the correct sequence of steps is followed, thereby preventing accidental opening. The patented protection against incorrect installation provides additional safety in demanding applications. The compact design and low weight make it easy to handle, while intermediate supports can be traversed without manual intervention. An integrated lanyard energy absorber reduces fall forces to a minimum. Certified to EN 353-1:2014+A1:2017, the fall arrest device is suitable for persons weighing 50 to 140 kg and is compatible with CLAW LINE and BORNACK SSE. Thanks to its low-maintenance design and testing in accordance with DGUV Guideline 312-906, maintenance requirements are minimal.

FEATURES

Colour:	Orange, Silver
Maximum lifetime:	10 years
Max. number of persons:	1
Maximum load:	140.00 kg
Min. temperature:	-30 °C
Max. temperature:	45 °C
Rope access technique:	No
Vertical systems:	Vertical rope system

DIMENSIONS

Rope length:	0.00 m
Min. height:	0 mm

MATERIAL

Material:	Stainless Steel
