DATASHEET

ICX TRANSPORT BOX

The ICX Transport Box is a rugged, custom-fit transport and storage solution for the ActSafe ICX Power Ascender systems. It reliably protects the winch during transport and storage and provides a secure place for important components such as the battery, charger, and remote control. Made of durable material, the box is designed for professional use in demanding work environments. Its compact, stackable design facilitates transport and ensures efficient organization on construction sites or during mobile service operations. In this way, the ICX Transport Box helps extend the service life of the equipment, prevent damage, and make the entire workflow significantly more structured and safer.
