AMPURI WIND

The AMPURI WIND is the specialised version for wind turbines – designed for narrow climbs and harsh environmental conditions. The abrasion-resistant back plate reliably protects the webbing from wear on ladders and structures, while the ergonomic design ensures high comfort and freedom of movement. Ideal for wind energy technicians who rely on long-lasting safety, stability, and functionality. Certified to EN 361, EN 358, and EN 813, the AMPURI WIND offers maximum reliability in every application.
