E-class number:	40-02-01-02
Customs no.:	63079098

Data sheet

ARG 31 SKYFIZZ LIFTER CLICK

The ARG 31 SKYFIZ is a further development of the ARG 30 and is ideal for work without positioning ropes, tools or other aids. It has an extremely strong front and rear fall arrest eyelet made of robust steel. It therefore complies with international standards. Due to the various adjustment options, the central chest eyelet sits optimally on the body. The comfortable back pad makes it easy to put on, distributes the load evenly and is breathable. The crossed straps are sewn to the back pad and distribute the force optimally. The cobra buckles simplify handling and putting on. The double-wrapped and firmly sewn strap ends prevent the strap from slipping through.

- Comfortable, breathable padding
- Ideally adaptable to the body of the wearer

FEATURES
